

## Sprint 1 Plan

Product Name: Canvas To Calendar

Team Name: Kirb Squad

Sprint Completion Date: 04/25/2023

Revision Number: 0

Revision Date: N/A

---

## High Level Goals

- **Goal**

Setup Github with branches for source control, establish the discord server as the communication medium, create a bare-bone extension to build off of, and produce a basic interactable UI for it.

- **List of User Stories**

As a student, I want to be able to seamlessly use Canvas To Calendar as a Google Chrome extension. [1.1]

**Task 1:** Research Google's documentation about how to start a Google Chrome Extension.

(~2 hours)

**Task 2:** Use Google's example code to create a "Hello World!" extension.  
(~1.5 hours)

As a student, I want to interact with a button that can inform me how to use the Canvas To Calendar extension. [1.2]

**Task 1:** Create a button on extension which will redirect Users to an instruction page.

(1 hour)

**Task 2:** Style the button and instruction page.  
(~1.5 hours)

---

## Team Roles

**Myles Marr:** Product Owner, Developer

**Lucas Michellys:** Scrum Master, Developer

**Kaled Barraaj:** Developer

**Utkarsh Pandey:** Developer

**Johan Suresh:** Developer

---

## Initial Setup

- **Task Assignment**

**Myles Marr:** [1.1], Task 2

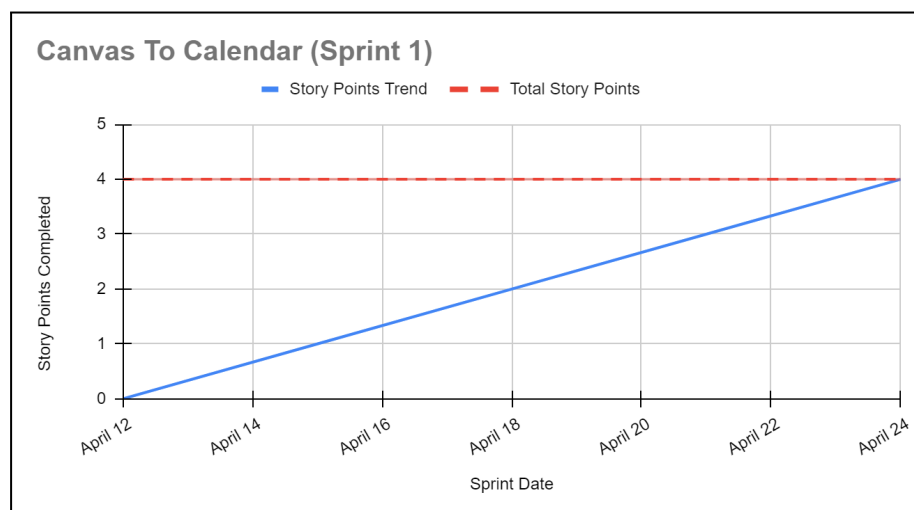

**Lucas Michellys:** [1.2], Task 1

**Kaled Barraaj:** [1.1], Task 1

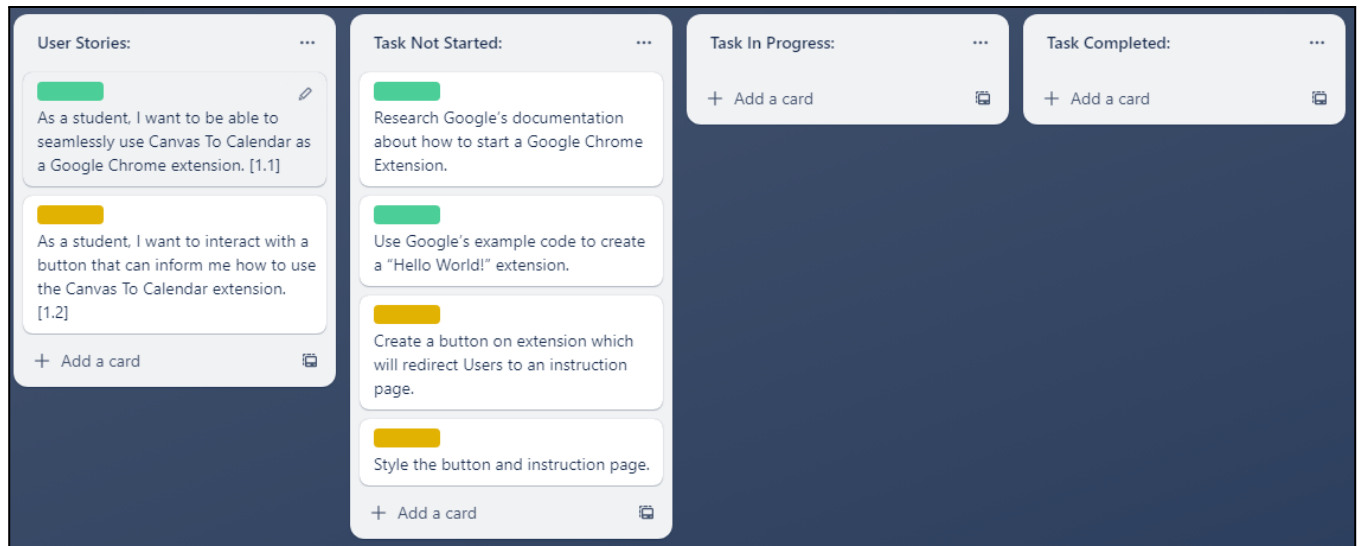

**Utkarsh Pandey:** [1.2], Task 1

**Johan Suresh:** [1.1], Task 1

- **Burnup Chart**

- **Scrum Board**

---

## Scrum Meeting Times

**Monday:** In the Engineering 1, (9:15 am - 10:15 am)

**Wednesday:** After Zoom with TA, (4:50 pm - 5:20 pm)

**Friday:** Over Discord, (5:00 pm - 5:30 pm)
